INTRODUCTION

The XTENDEX® 2-Port USB 3.0 Extender via Fiber Optic Cable extends two USB devices up to 1,148 feet (350 meters) using a duplex LC multimode fiber optic cable. Each extender consists of a local unit that connects to a computer, and a remote unit that connects to two USB 3.0/2.0/1.1 devices. The local and remote units are interconnected via two-strand LC multimode fiber optic cable.

Features:

- Supports fully transparent USB connection - compatible with USB computers (Windows 7/10/11, Mac OS 10/11/12, Linux) and their associated peripherals.
- Signal transmission up to 1,148 feet (350 meters) via a two-strand LC 50-micron OM3 (or above) multimode fiber
- Compliant with USB 3.0 specifications.
- Backwards compatible with USB 2.0/1.1.
- Supports super-speed (5 Gbps), high-speed (480 Mbps), full-speed (12 Mbps), or low-speed (1.5 Mbps) USB devices (flash drives, external hard drives, portable monitors, smartphones/tablets with USB 3.0 Type-C port, etc.).
- Supports full 900mA current.
- Supports Plug-n-Play specification.
- Low RFI/EMI for sensitive applications.
- No drivers required.
- Cables can be installed in conduit prior to extender installation.

MATERIALS

Materials supplied with this kit:

- NTI XTENDEX Transmitter and Receiver
- 100-240VAC, 50 or 60Hz-5VDC/3A AC Adapter
- Multi-Country Power Plug Connectors (EU, UK, AU and US)
- USB 3 Type Micro B-to-USB 3 Type A Male 21 Inch (540mm) cable
- URL slip with location of This manual

Materials *Not* supplied but **REQUIRED**:

Up to 350 meters (1148 feet) of LC Duplex 50-micron OM3 (or above) Multimode Fiber Optic Cable

Note: The SFP modules are not interchangeable with other SFP modules. They are not removable. They cannot be upgraded.

FEATURES AND FUNCTIONS

**USB3-2FOLC50-2
Receiver**

**USB3-2FOLC50-2
Transmitter**

| # | LABEL | CONNECTOR/LED | DESCRIPTION |
|---|--------------|--------------------------------|--|
| 1 | None | Fiber Optic Transceiver | For connection of Type LC Duplex OM3 (or above) Multimode fiber cable to go between the Transmitter and Receiver |
| 2 | Link symbol | LED | Indicate when connection between Transmitter and Receiver has been established. |
| 3 | Power symbol | LED | Indicate when power has been applied |
| 4 | None | Power Jack | for connection of power supply |
| 5 | To Device | Two USB Type A connectors | For connection of extended USB 1.1, 2.0 or 3.0 devices |
| 6 | To Host | USB 3.0 Type Micro B connector | For connection of USB 3.0 cable to host |

CONNECTIONS

1. Connect a LC duplex OM3 (or above) multimode fiber optic cable up to 350 meters (1148 feet) long between the fiber connector on the Transmitter and the fiber connector on the Receiver.

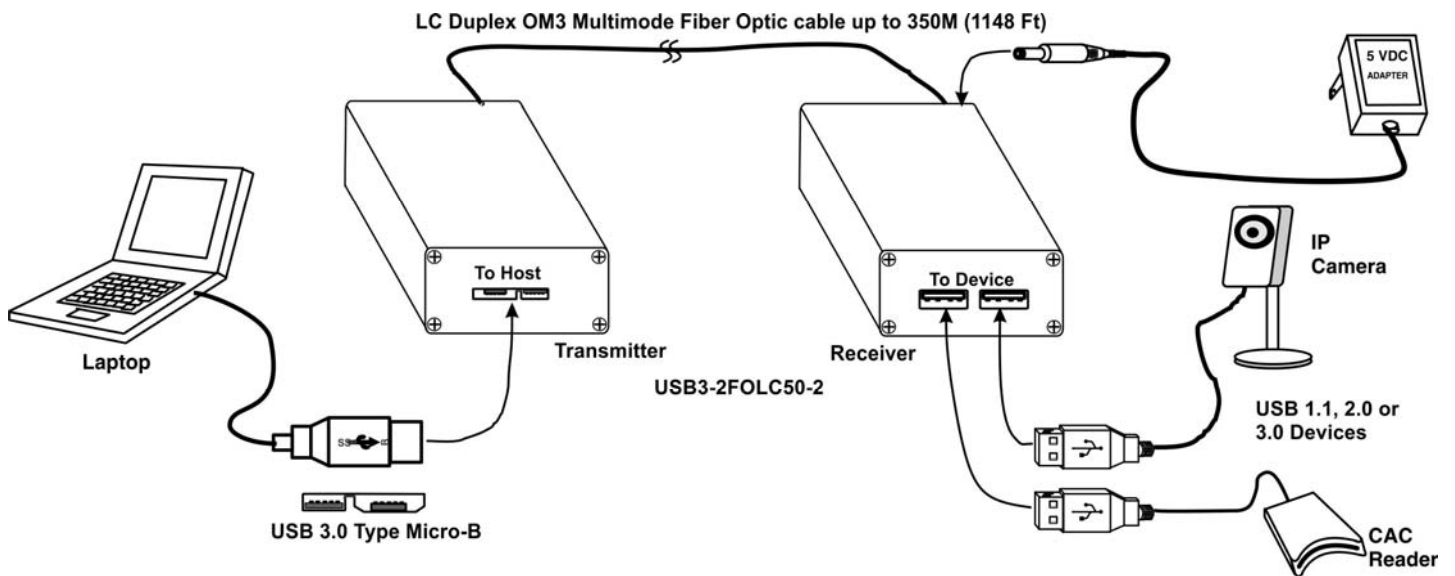

Note: The SFP modules are not interchangeable with other SFP modules. They are not removable. They cannot be upgraded.

2. Connect the USB devices (USB 1.1, 2.0 or 3.0) to the Receiver.

3. Connect the 5VDC AC adapter between a power source and the Receiver.

4. Connect the Host to the Transmitter with the USB 3.0 Type Micro B-to-USB Type A cable provided. The Transmitter will be powered by the Host.

Once everything is connected, the power LED and the link LED should each illuminate.

TECHNICAL SPECIFICATIONS

| | |
|----------------------------|--|
| USB Version supported | USB 1.1, 2.0 and 3.0 |
| Input Port | USB 3.0 Type Micro-B |
| Output Port | Two USB Type A |
| Speed | Up to SuperSpeed 5 Gbps |
| Supported OS | Windows 7,8,8.1,10 and 11; MacOS 10.x and above; Linux |
| Extension Distance | 1148 Feet (350 meters) |
| Fiber cable supported | LC Duplex 50-micron OM3 (or above) Multimode |
| Supported USB Devices | USB 1.1, USB 2.0 and USB 3.0 Flash Drive, Touchscreen, printer, camera; USB 3.0 Type-C phone or tablet, etc. |
| Operating Temperatures | 32 to 122°F (0 to 50°C) |
| Storage Humidity | -4 to 158°F (-20 to 70°C) |
| Operating/Storage Humidity | 20 ~ 80% |
| Transmitter Power | Bus-Powered (5VDC from USB port) |
| Receiver Power | 100-240VAC, 50 or 60Hz-5VDC/3A AC Adapter with Multi-country adapters (EU, UK, AU and US) |
| Size (In.) WxDxH | 2.24 x 4.13 x 1.10 In. (Transmitter and Receiver) |
| Approvals | CE, RoHS, FCC |

TROUBLESHOOTING

If the USB will not function on the unit, do the following:

1. Go into device manager and right click on of the entries of “Generic SuperSpeed USB Hub”
2. Left click on “properties”
3. Left click on the “Power management” tab
4. Uncheck the ”Allow the computer to turn OFF this device to save power” if it is checked.

WARRANTY INFORMATION

The warranty period on this product (parts and labor) is two (2) years from the date of purchase. Please contact Network Technologies Inc at **(800) 742-8324** (800-RGB-TECH) or **(330) 562-7070** or visit our website at <http://www.networktechinc.com> for information regarding repairs and/or returns. A return authorization number is required for all repairs/returns.
